

► Model MPEX

Explosion-Proof Fire Alarm Pull Station

The Model MPEX Explosion-Proof Pull Station is designed for hazardous locations where flammable gases, vapors, combustible dusts or easily ignitable fibers are present. The unique swing-up front cover exposes a pull-down ring which activates the alarm; this two-step process prevents accidental activation. The MPEX is reset by depressing the shaft and returning the plate to its original position.

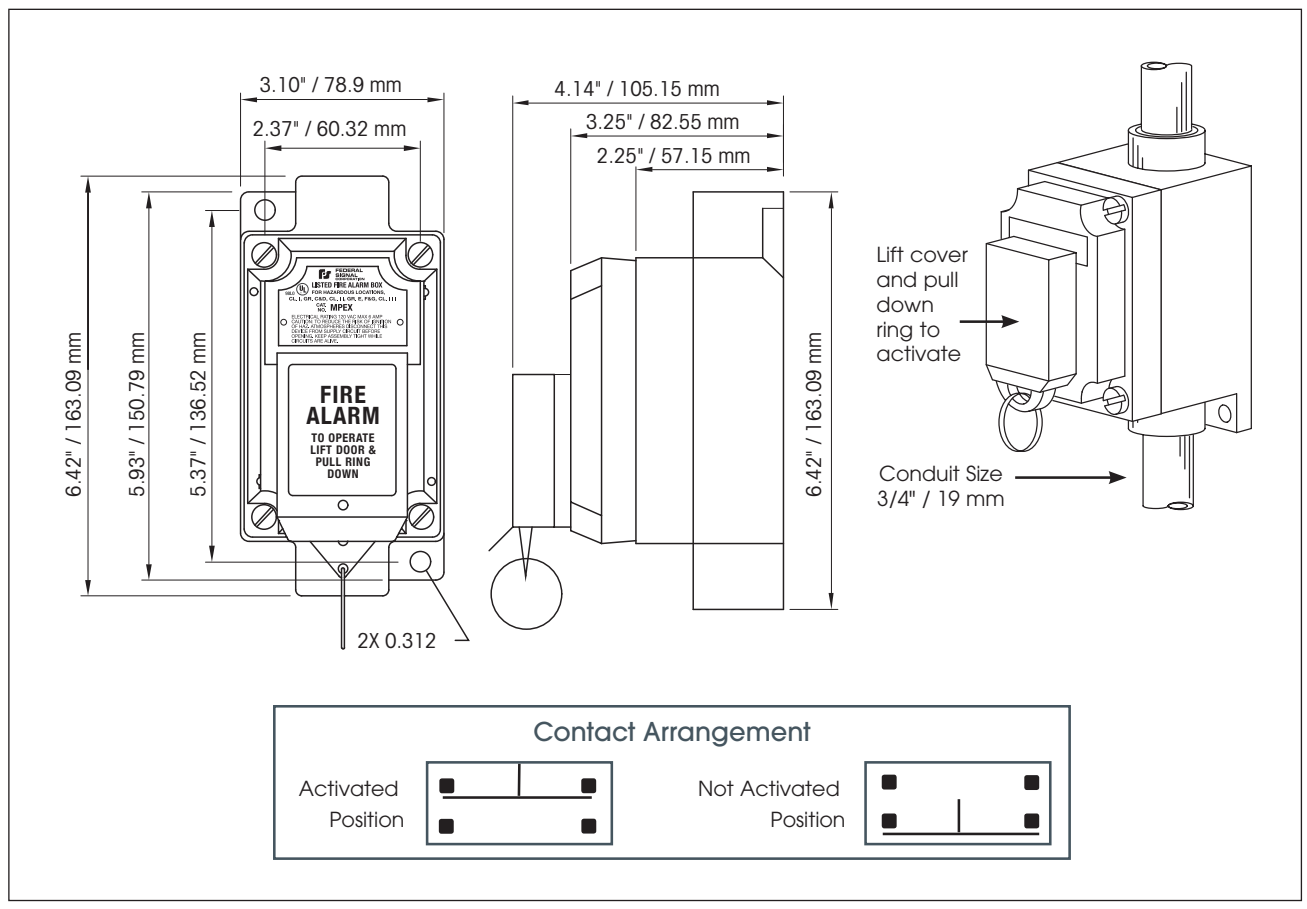

The enclosure is made of copper-free cast aluminum alloy.

FEATURES

- Contacts on the unit are rated 120VAC, 60Hz at six amps continuous
- Highly visible red enclosure
- Lift cover and pull down ring to activate
