AMEREX 3% AFFF FOAM CONCENTRATE

Part No. 21543

Description :

- AMEREX 3% AFFF is a synthetic foam concentrate used to effectively extinguish Class B hydrocarbon fuel fires at 3% solution.
- AMEREX 3% AFFF provides rapid extinguishment and excellent burn back resistance.
- Can be used with fresh, sea and brackish water. AMEREX 3% AFFF has a 20 year shelf life.

Application :

- Used to prevent re-ignition of a liquid spill and control hazardous vapors
- Compatible with conventional firefighting equipment such as non-air aspirating, aspirating foam nozzles, and common proportioning devices such as eductors and self-educting nozzles.
- AMEREX 3% AFFF is compatible with most dry chemical agents.
- Compatible with multiple materials of construction such as carbon steel, stainless steel, brass, polyethylene and PVC.

Approvals :

- 2015 Compliant U.S. EPA Stewardship Program. C₆ Fluorine Chemistry.
- Underwriters Laboratories, Inc. (UL) Standard 162 Listed.
- European Standard EN1568 Part 3.
- Resource Protection International LASTFIRE

AMEREX CLASS "A" FOAM CONCENTRATE

Part No. 20990

Description :

- AMEREX CLASS A FOAM CONCENTRATE is a synthetic firefighting foam concentrate specifically designed to be used for Wild Land and other Class A fuel fires.
- Creates a faster penetration and greater fire control when attacking combustible Class A fuels.
- Improves water's wetting capability 10 times. AMEREX CLASS A FOAM CONCENTRATE has an admixture rate of 0.1% to 1.0% depending on use

Application :

- Designed for Class A fires including: wood, paper, coal, rubber and structure fires.
- Compatible with conventional firefighting equipment such as non-air aspirating and aspirating foam nozzles, compressed air foam systems (CAFS), low, medium and high expansion discharge device.
- Compatible with multiple materials of construction such as carbon steel, stainless steel, brass, polyethylene and PVC.

Approvals :

- Meets NFPA 298
- USDA United States Forest Service Qualified Products List (QPL)

AMEREX 3X3 ATC FOAM CONCENTRATE

Part No. 21549

Description :

- AMEREX 3X3 ATC is a synthetic foam concentrate used to effectively extinguish Class B hydrocarbon and polar solvent fuel fires at 3% solution.
- AMEREX 3X3 ATC provides rapid extinguishment and excellent burn back resistance.
- Can be used with fresh, sea and brackish water. AMEREX 3X3 ATC has a 20 year shelf life.

Application :

- Used to prevent re-ignition of a liquid spill and control hazardous vapors.
- Compatible with conventional firefighting equipment such as non-air aspirating, aspirating foam nozzles, and common proportioning devices such as eductors and self-educting nozzles.
- AMEREX 3X3 ATC is compatible with most dry chemical agents.
- Compatible with multiple materials of construction such as carbon steel, stainless steel, brass, polyethylene and PVC.

Approvals :

- 2015 Compliant U.S. EPA Stewardship Program. C₆ Fluorine Chemistry.
- Underwriters Laboratories, Inc. (UL) Standard 162 Listed.
- European Standard EN1568 Part 3&4.
- Resource Protection International LASTFIRE
